

Bilal Mohsin

Full-Stack Developer & AI Engineer (Student)

github.com/BilalKalyar-200 | linkedin.com/in/bilal-mohsin-830350320 | bilalkalyar-200.github.io/portfolio.github.io | mohsinkalyarpk@gmail.com | +92 333-7049740

SUMMARY

Third-year Computer Science student at FAST NUCES building full-stack applications (React, Node.js, Express, MongoDB, PostgreSQL) and autonomous AI agents (Gemini API, Qwen AI). Comfortable across the stack – from REST API design and database schemas to AI agent orchestration and classical search algorithms. Dean's List recipient with strong self-directed project execution.

EDUCATION

2023 – 2027 BS Computer Science at **FAST NUCES** (GPA: 3.23/4.0)

SKILLS

Programming Languages	Python, JavaScript, C++, SQL
Web Development	React.js, Node.js, Express.js, FastAPI, REST APIs, HTML, CSS
Databases	MongoDB, PostgreSQL, SQLite, Database Design
AI and ML	Google Gemini API, Qwen AI, Multi-Agent Systems, Scikit-learn
Tools	Git, GitHub, Streamlit, Pandas, Linux

EXPERIENCE

Teaching Assistant – Object-Oriented Programming January 2026 – Present
FAST NUCES, Chiniot-Faisalabad Campus

- Led weekly lab sessions for 50+ students on OOP concepts in C++, delivering structured feedback on graded assignments to improve completion rates.

PROJECTS

Smiley – Dental Health Tracker – JavaScript, React, Node.js, MongoDB
github.com/BilalKalyar-200/smiley-dental-tracker

- Collaborated in a team to design and build a digital dental health management web app using MongoDB for patient records, as a semester-long Web Programming project.

Workspace Agent – Python, FastAPI, React, Google Gemini API, SQLite
github.com/BilalKalyar-200/Devpost-gemini-hackaton-workspace-agent

- Built an autonomous AI agent integrating Gmail, Google Classroom, and Calendar APIs to automate End-of-Day reporting.

Banking Application – JavaScript, Node.js, Express.js, PostgreSQL
github.com/BilalKalyar-200/banking-app

- Built a full-stack banking system with secure authentication, account management, and transaction processing on a relational PostgreSQL schema.

HireFlow AI – Python, Qwen AI, Alibaba Cloud
github.com/BilalKalyar-200/hireflow-ai

- Built an autonomous HR recruitment agent powered by the Qwen AI model on Alibaba Cloud.

CERTIFICATIONS

2025 NASA Space Apps Challenge – Participation Certificate

ACHIEVEMENTS

Fall 2024 Dean's List – FAST NUCES CFD

2025 ICPC Asia-Topi Regional On-site Contest – Top-placement finish, representing FAST NUCES CFD
